## <u>Intake Primary Academy - Access Plan 2018-2021</u>

## Purpose of the Plan

The purpose of this plan is to show how Intake Primary Academy intends, over time, to increase the accessibility of our school for disabled pupils.

## **Definition of Disability**

A person has a disability if he or she has a physical or mental impairment that has a substantial and long-term adverse effect on his or her ability to carry out normal day to day activities.

This plan sets out the proposals of the Governing Body of the school to increase access to education for disabled pupils in the three areas required by the planning duties in the DDA:

- increasing the extent to which disabled pupils can participate in the school curriculum, which includes teaching and learning and the wider curriculum of the school, such as participation in after school clubs, leisure and cultural activities or school visits;
- improving the environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services, which includes improvements to the physical environment of the school and physical aids to access education.
- ·improving the delivery to disabled pupils of information, which is provided in writing for pupils who are not disabled. eg. Handouts, timetables, textbooks and information about school events. The information should take account of the pupils` disabilities and the preferred format of pupils and parents and be made available within a reasonable timeframe.

<u>Outcomes</u>	<u>Strategies</u>	Timescale	Who	Success Criteria
